    <div class="rating">
```

Check

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering

1.

Warning

Consider adding a `lang` attribute to the `html` start tag to declare the language of this document.

From line 1, column 29: to line 2, column 25

emplate-->{{% extends "base.html" %}}<!--C

For further guidance, consult [Declaring the overall language of a page](#) and [Choosing language tags](#).

If the HTML checker has misidentified the language of this document, please [file an issue report](#) or [send e-mail to report the problem](#).
2.

Error

Non-space characters found without seeing a doctype first. Expected `<!DOCTYPE html>`.

From line 1, column 29: to line 2, column 25

emplate-->{{% extends "base.html" %}}<!--C
3.

Error

Element `head` is missing a required instance of child element `title`.

From line 1, column 29: to line 2, column 25

emplate-->{{% extends "base.html" %}}<!--C

Content model for element `head`:
If the document is [an iframe srcdoc document](#) or if title information is available from a higher-level protocol: Zero or more elements of [metadata content](#), of which no more than one is a [title](#) element and no more than one is a [base](#) element.
Otherwise: One or more elements of [metadata content](#), of which exactly one is a [title](#) element and no more than one is a [base](#) element.
4.

Error

Bad value `{{url_for('add_review', product_id=product_id)}}` for attribute `action` on element `form`: Illegal character in path segment: `{` is not allowed.

From line 16, column 9: to line 17, column 48

>{{<form action="{{url_for('add_review', product_id=product_id)}}" method="POST" class="col-12 col-md-8 offset-md-2">
