```
<!--Extends base template-->
{% extends "base.html" %}
<!--Content block start-->
{% block content %}
<!--Main content container start-->
<section class="container content-container">
  <!--Page heading start-->
  <div class="row no-gutters">
    <div class="col-12">
      <h1 class="text-center heading-1 headings">{{page_title}}</h1>
    </div>
  </div>
</div>
<!--Page heading end-->
<!--Add product form start. CSS Classes for form styling is from https://bootswatch.com/lux/-->
<div class="row no-gutters">
```

Check

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering

1. **Warning** Consider adding a `lang` attribute to the `html` start tag to declare the language of this document.
[From line 1, column 29: to line 2, column 25](#)

```
emplate-->{ % extends "base.html" % }<!--C
```

For further guidance, consult [Declaring the overall language of a page](#) and [Choosing language tags](#).

If the HTML checker has misidentified the language of this document, please [file an issue report](#) or [send e-mail to report the problem](#).
 2. **Error** Non-space characters found without seeing a doctype first. Expected `<!DOCTYPE html>`.
[From line 1, column 29: to line 2, column 25](#)

```
emplate-->{ % extends "base.html" % }<!--C
```
 3. **Error** Element `head` is missing a required instance of child element `title`.
[From line 1, column 29: to line 2, column 25](#)

```
emplate-->{ % extends "base.html" % }<!--C
```

Content model for element `head`:

If the document is an [iframe srcdoc document](#) or if title information is available from a higher-level protocol: Zero or more elements of [metadata content](#), of which no more than one is a `title` element and no more than one is a `base` element.

Otherwise: One or more elements of [metadata content](#), of which exactly one is a `title` element and no more than one is a `base` element.
 4. **Error** Bad value `{{url_for('add_product')}}` for attribute `action` on element `form`: Illegal character in path segment: `{` is not allowed.
[From line 16, column 9: to line 16, column 106](#)

```
>{ <form class="col-12 col-md-10 col-lg-8 mx-auto" action="{{url_for('add_product')}}" method="POST">
```
 5. **Error** Text not allowed in element `select` in this context.
[From line 32, column 1: to line 32, column 56](#)

```
</option>{ % for category in categories % }
```

Content model for element `select`:

Zero or more [option](#), [optgroup](#), and [script-supporting](#) elements.
 6. **Error** Text not allowed in element `select` in this context.
[From line 34, column 1: to line 34, column 36](#)

```
</option>{ % endfor % }
```

Content model for element `select`:

Zero or more [option](#), [optgroup](#), and [script-supporting](#) elements.

Document checking completed.
